

FLUIDEZ PARA ESPAÑOL

If you are really going to succeed in improving your Spanish skills, you can't rely on language class to keep this up. At some point (**NOW!!**), you have to take ownership of this language journey in your own life and not let it be just something that I, as your teacher, am making you do. Therefore, this summer, we are going to experience "fluency activities" or **CHOOSE YOUR OWN ADVENTURE!** You will need to have **20 points** by the end of the summer (with at least **one from each point level**). 10 points must be on your website by August 1st (so you don't put it ALL off until the day before we come back... ☺) On your website, you will need to make a blog post for each activity including:

- 1) what you did and the point value
- 2) what you learned/experienced
- 3) what you need to improve on
- 4) relevant pictures and links
- 5) optional: some of the activities have a specific task with it (for example, compile a list of words). Please type these in word documents and upload the files.

All of your blog posts should be in Spanish (obviously...) and I reserve the right to reduce your potential points if the assignment is not adequately completed, or the items required are not included.

*If you have an original idea and you would like to do it, please contact me for approval and point value!
